Brian Benoit, the Parish consultant, called last week and said that Mr. Cormier had mentioned that the potholes in his driveway were worn out larger after all the trucks went up and down it for the response. Brian talked like Mr. Cormier would be willing to spread the material with his tractor if we had some patch material dropped off.

Bryant

I'm sorry I didn't. The voice message just seemed to quit.

?

Greg - did you get my voice messages about Mr. Cormier's driveway?

Respectfully,

Bryant Smalley

Subject: Absorbent Boom pickup Crowley,LA

Hi Bryant

Eric with USES will drive out tomorrow with a crew and a boat and remove all the absorbent boom from the Bayou and the runoff ditch leading from the source area.

Thanks

Jim
